Quantity:

- _____ **"Orrell Research Library"** - containing PDF versions of the following: Orrell U.S. Newsletters {Issues # 1 - # 42}, Orrell Family Records at the Maryland State Archives, Orrell Family Vital Records (Births, Marriages, Deaths, including all images in a ZIP file), Orrells In The Civil War, Orrell Family in the 1790-1920 Census, Orrell Family in the 1930 Census, Descendants of John & Mary Orrell of Dorchester County, Maryland, Daniel Black Orrell (3rd edition), Ancestors and Relatives of Reverdy Lewin Orrell, IV, Ancestors and Relatives of Robert Stanley Orrell \$ 30.00

- _____ **"Orrell Scanned Database"** Currently, we have over 4,200 scanned images and documents on this website in various categories: birth, death, marriage, land, military, obituaries, newspaper ads, photos, census, administration letters, bible records, bills of sale, baptism, bonds, cemetery, interment, marriage bonds, passenger lists, patents, petitions, tax lists, wedding invitations, writ of dower, etc. The Orrell Scanned Database is in a Microsoft Excel spreadsheet. The first column contains a hyperlink which, when clicked, will open up the document directly from the website. If a record contains information on more than one person, each person is listed in the spreadsheet. One image on the website, might related to ten different people. Therefore, the spreadsheet contains close to 8,000 rows of information. A person is listed by their full name, maiden & married names, nickname, and alternate surname spelling. We also list the date of the record, the place of the record, the type of record, and the person's RIN number from the master Orrell PAF database. Notes including parent's name and other information are attached to each listing. With a limited knowledge of how to sort within an Excel spreadsheet, you can instantly sort and look at all the records for any individual. Or you could look at all the available images from the 1930 census. The Orrell Scanned Database spreadsheet is available for \$30. I'll also include every scanned image (over 4,200) on the CD and will also put the Excel Viewer, Word Viewer, and PowerPoint viewer on the disc. \$ 30.00
